Bold, streamlined architectural lighting collection with high-performance LED technology powered by Nichia® and Cree®.

With its stunning profile for pedestrian and site lighting, the 780/790 collection offers multiple size options to create a seamless transition from parking lots to walkways and facades. The 780/790 collection is manufactured from durable, high-quality cast and spun aluminum. The collection is available in both two and four struts with post arms and wall mounts in two styles and coordinating bollards in three body styles.

Adding to the bold styling, energy-efficient, high-performance lighting is achieved with multiple LED offerings:

46w/78w/117w high performance LED platforms | 16w/24w/37w cost effective LED modules | 2700K, 3000K, 3500K, 4000K & 5000K (CCT may vary by light engine.)

Complementing style, performance, and meeting the demands of lighting control ordinances and specifications is made simpler with industry standard Triac, 0-10v, DMX and DALI dimming options.

LA780 | LA790 Series Post and wall mount available in four sizes with 2-or 4-struts

MLO & BUG Rating Guide

The Model Lighting Ordinance (MLO) is a guide for environmentally responsible outdoor lighting in North America and is the result of extensive efforts by the International Dark Sky Association (IDA) and the Illuminating Engineering Society of North America (IESNA).

For a BUG Rating Quick Reference Guide, visit www.ANPLighting.com and click the Resource tab.

Since 1985, ANP Lighting has been skillfully integrating design aesthetics, engineering excellence, and advancing technology to manufacture the industry's only all-LED line of decorative architectural lighting and warehouse-inspired RLM fixtures. With our privately owned foundry and spinning facilities and in-house engineering department, we can quickly and cost-effectively modify any product to deliver an affordable custom modification solution. We empower architects, engineers, and specifiers to meet the growing demand for energy conservation, sustainability, and environmental design inspiration.

We design and manufacture the largest selection of LED decorative architectural lighting available today, including luminaires, bases, poles, and bollards, and are recognized as the #1 manufacturer of RLM fixtures and mountings in the industry.
